TWO FIGHTS.  
Commandant Malon Mortally Wounded and Left Behind by Boers.

Middleburg, Transvaal, May 28.—Major Collette, with a detachment of the mounted troops of this district, encountered a force of Boers on the Repond road on May 27. The engagement which followed lasted for a long time. The enemy finally drew off, however, leaving behind them the left Commandant Malon, who was mortally wounded.

An armored train engaged the same party of Boers the evening of May 27, but no details of the latter engagement are at hand.

RICHARD LISTER DEAD.

He Was a Well Known Member of Provincial Police Force.

New Westminster, May 28.—(Special)—Chief Provincial Constable R. B. Lister died here this morning after a brief illness, mental disorder having succeeded a year of ill health. Deceased was a native of Yorkshire and 40 years old, unmarried and was a resident of New Westminster for 18 years. He was well known to many Victorians as captain of the Westminster football team for several years.

The new government dredge left for down river today to remove sandbars which have practically put Ladner off the visiting list of river steamers. After a month's work there the dredge will go to Victoria to try her hand on James bay reclamation.

## Ninety One Recovered

Twenty More Bodies Taken Out at Fernie Mines by Last Night.

Twenty Still Missing—Additional Names of Victims of the Explosion.

Provincial Mineralogist Corrects Wrong Reports as to Cause of Accident.

From Our Own Correspondent.

Fernie, May 28.—The work of rescuing the dead has been proceeding much more rapidly during the past 24 hours, some 20 bodies having been taken out. The total number recovered now reaches 91, and it is expected the remainder will be taken out before the end of the week.

From all reports, there are still known to be about 20 persons in the mines. Following is a list of those not yet recovered:

A. Coleclough, R. Lamb, M. McLeod, C. Alwyn, Jesse Wheeler, S. Balayit, W. McDonald, Geo. Mitchell, Alex. Walker, W. J. Davis, S. Sofroe, John Matulik, Joe Matoya, J. E. Paley, F. Bamski, J. S. Ezedorovich, J. Dickson, Thos. Craig, Angus Gunn, M. Kurat, W. Morchant, John Owens, W. Owens, F. Lewis.

BODIES RECOVERED.

Those taken out during the past 24 hours were: Steve Zofrick, Jas. Thorpe, Joe Shelving, Alex. Brodie, Steve Tusco, Andrew Patterson, Neta Posario, Antoine Pelro, John Satarvitch, F. Frederico, Andrew Angelo, Mike Bacous, Mat Maughey, S. J. Marsh, an unknown, Joe Barron, Geo. Beaver, John Stewart, Geo. Beach, Alex. Fetherston, Geo. Beaver, Enoch Barron, A. J. Davis. This brings the total number recovered up to 91.

OFFICIAL REPORT.

Mr. Robertson, the Provincial Mineralogist Reports on the Conditions at Fernie.

The following report was received yesterday by Hon. E. G. Prior, Minister of Mines: "Seventy-eight bodies recovered to date, eight today. All parts of mine searched except Beaver Dungs district; air turned there last shift and three rooms No. 2 district. Found difficult to dislodge gas, but being accomplished gradually. Probably six bodies there. Mine free from gas except as noted. No trace of fire. Since Monday I have been with relief parties through every section, and I have seen no indication as to origin of explosion; certainly not from machine holes, as popularly reported, as they were found intact and had not been loaded. Mine dusty, but no sign of coked dust to indicate a dust explosion. All bodies probably out in under 24 hours, except those buried under falls of false roof through props being blown out, some places covering large areas. Search being made systematic and persistent. General satisfaction being expressed at government grant."

"W. F. ROBERTSON."

"Provincial Mineralogist."

REPORTS OF  
MORE ERUPTION

Vessels Passing Martinique See Mount Pelee Vomiting Clouds of Smoke.

Rosseau, Island of Dominica, May 28.—The British steamer Savana, from London for Barbados and West Indian ports, has arrived here. She passed Mount Pelee, Island of Martinique, at 9 o'clock this morning, when a thick black smoke was arising from the volcano. The officers of the Savana believed, from the quantity of dust which fell on the steamer, that another eruption had occurred.

St. John's, Island of Antigua, B.W.I., May 28.—The British steamer Fontabelle, from New York for various West Indian ports, has arrived here and reported having passed St. Pierre, Martinique, during the afternoon of May 27, when vast columns of smoke and flashes from Mount Pelee were visible 40 miles away. Dust fell on the steamer when 50 miles from the island. The Fontabelle landed relief supplies at Port de France.

Port De France, Island of Martinique, (5 p. m.) May 28.—A tremendous explosion of very black smoke from Mount Pelee, at a quarter before nine o'clock this morning, accentuated the fear entertained for the safety of George Kennan, the author, who with a land party has been examining the northern part of the island, and the Governor of Martinique, was at once seen in the matter of arranging for a rescue party to proceed along the coast of the island on the United States cruiser Cincinnati should such steps appear necessary. At about 11 o'clock this morning, Fernand Clerc, a wealthy landed proprietor of Martinique, arrived here and announced that Mr. Kennan and his party were safe on the north end of the island.

LACROSSE.  
Toronto University Wins From Hobart College.

Geneva, N. Y., May 28.—Toronto university beat the Hobart college lacrosse team today by a score of 7 to 3. The game was played in a cold, drizzling rain.

STRIKE ENDED.  
Dominion Transport Company Grant Men's Demands.

Montreal, May 28.—The strike of carriers employed by the Dominion Transport company ended today, the company meeting the men's demands.

The new building of Baron De Hirsch Institute was formally opened today by the Governor-General. The building is a splendid structure, erected at a cost of over a hundred thousand dollars. It is used as a Jewish school, and immigration home.

CAPTAIN BELL.

Canadian Representative Presented to United States President.

Washington, May 28.—Col. Gerald C. Kitson, military attaché of the British embassy, called on the President today and presented Capt. Bell, of Canada, who represented the Dominion at the funeral of Lord Pauncefote.

TRAIN WRECK.

Falls Through Bridge and Fireman Killed.

St. John, N. B., May 28.—A train on the New Brunswick Central railway, while crossing a trestle bridge near Wausanook, this morning, fell through. The engineer escaped, but the fireman, named Norton, was killed.

TORTURED BY THIEVES.

Farmer's Feet Burned to Make Him Give Up Money.

Ansonia, Conn., May 28.—In an attempt to force him to confess where he had secreted his money, robbers last night brutally tortured William Baldwin, a wealthy farmer of Orange. Baldwin reported to the police today that robbers beat him about the head, burned his feet with a torch, and then threw him on a blazing bed, while they escaped. He succeeded in extinguishing the flames, and then fell unconscious, in which condition he was today found by neighbors.

KILLED BY WOODTICK.

Roseland Child Dies From Bite of Insect.

Roseland, B. C., May 28.—A five-year-old daughter of Charles Farquharson, of Roseland, died last evening as the result of the attack of a wood tick, a few days previously. Paralysis followed the bite of the insect.

H. W. C. Jackson has resigned the secretaryship of the Roseland Board of Trade on account of a difference of opinion between himself and certain members of the Board. Mr. Jackson is also secretary of the Associated Boards of Trade of Southern British Columbia.

The Bazaar relief fund here has reached about \$800. The Le Roi and Le Roi No. 2 mines contributed \$250 each.

Ross Anxious About Ottawa

Ontario Liberals in Fear of Losing Their One Seat There.

Captain Morrison D. S. O. and General O'Grady Italy Died.

From Our Own Correspondent.

Ottawa, Ont., May 28.—Premier Ross closed the Ontario campaign here tonight with a well-attended meeting in the Russell theatre. His visit indicates an appreciation of the danger that Liberals are in of losing their one seat in Ottawa. Captain Morrison, D. S. O., was entertained at luncheon today in the Rideau club. The Minister of Militia, who proposed the toast of the guest, referred to Capt. Morrison's services in South Africa, and said there had been no question of his selection for the Coronation contingent.

Lord Aylmer presided at a farewell dinner given tonight in the Rideau club by officers of the headquarters to General O'Grady Italy. The Minister and Deputy Minister of Militia were present. The Senatorship for Ottawa, made vacant by the death of Senator Clewton, will be filled by the appointment of H. N. Bate, of this city.

The Finance Minister has received from Lord Strathcona a letter written by Mr. Chamberlain, expressing grateful acknowledgment for Canada's contribution to the West Indian volcano sufferers, and noting the similar generosity of the Dominion at the time of the hurricane at St. Vincent in 1898.

STATE CONVENTION.

Ohio Republicans Choose Ticket for Elections.

Cleveland, Ohio, May 28.—The Republican state convention, which has been a continued ovation here all week to Senator Hanna, closed this evening with a great demonstration in his honor, to which he responded in a characteristic speech. The Senator at former state conventions has sounded key notes that were taken up by Republican clubs. He told them today to sing "Keep on getting well enough alone" in the campaign rallies this year. The convention was distinguished for harmony in choruses for Hanna in all that was done. One of the last reconciliations was that of Senator Hanna and former Governor Asa S. Bushnell, of Springfield. The following ticket was nominated: Secretary of state, Lewis C. Laylin, of Norwalk; judge of Supreme court, Dm. C. Crew, of McConnellsville; Fox, of Newburg; Commissioner, Horace Ankeny, of Xenia; member of the board of public works, Wm. Kirtle, jr., of Defiance.

EXPIRES ON SATURDAY.

Dr. Webb Has Not Yet Completed Canada Atlantic Deal.

Burlington, Vt., May 28.—From the fact that within the past three days Dr. Seward Webb has conducted a party of prominent Canadian railway men and capitalists on a tour of inspection of the Canada Atlantic railway, it is believed here that an effort is being made to induce the Canadians to join Dr. Webb in his project of having the Rutland railroad purchase the Canada Atlantic. The party under Dr. Webb included Senator Cox of Toronto, Messrs. Mackenzie & Mann and Z. Lash, K.C., of Toronto, solicitors of the Canadian Northern Railway company. The Canadian Northern Railway company is constructing a line from Parry Sound to Sudbury, and has had a desire to get an interest in the Canada Atlantic and its connections, the Canada Atlantic would give a through system from Sudbury to Parry Sound to the ocean at Boston. Dr. Webb's present option on the Canada Atlantic expires next Saturday.

TROUBLE BREWING.

Pekin, May 28.—The native newspapers published here assert that France has notified China that the insurrection in Kwangsi province is interfering with her Tonquin trade, and that unless it is suppressed before July, France will take steps to protect her interests.

## Vancouver's Again Win

By Five to Four they Defeat the California Baseball Team.

Famous Japanese General Is Coming by the Next Empress Liner.

B. C. Mills Intend Building Four Master For the Lumber Trade.

From Our Own Correspondent.

Vancouver, B. C., May 28.—The University of California ball team were again defeated by Vancouver today by a score of 5 to 4. If the visitors were telling about it they would say that they lost the game by the rank errors of Catcher Overall and second baseman Williams in the first innings. Ballantine made a base hit and was moved to second by Broadhurst taking first on balls. Broadhurst made a sacrifice hit and moved them up two more bases. Law got to first on an error, and Green hit a slow ball into the right fielder's mit; it was muffed, picked up too late, and thrown to the pitcher, who lost his head threw wild, and let the whole bunch in. No other run was made by Vancouver until the ninth innings. The runs were made by Ballantine, Law, Broadhurst, Green and Pierrott. Pierrott made two hits off of Overall, and Ballantine and Broadhurst each. Overall struck out Forrest three times, Green twice, and Broadhurst and Ballantine once. The boy pitcher, Forrest, was in the box for Vancouver. He struck out four men; five hits were made off him, and he let two men to bases on balls. While Overall let three men to bases on balls. A large amount of money changed hands, in fact all the California boys would put up. One local sporting man won \$300.

There is a rush on for free miners certificates as the year ends on 31st May. The only case before the Supreme court today was that of King, accused of personating the Chief of Police, and taking a gold watch and chain from one W. Eagles, of Cariboo, on the grounds that he was drunk, and he would take care of it for him. The case was enlarged until next assizes, Livingstone, for the defence, making an objection stick, that the evidence of Eagles, departure for South Africa, must be proved, otherwise then by a telegram from the Chief of Police to that effect.

The B. C. Mills, Timber & Trading company propose to build a four-master for the lumber trade. It is rumored that the construction of a whole fleet is contemplated. General Y. Fukushima, commander-in-chief of the Japanese forces during the late Japanese-Chinese war, is en route for England. He will arrive by the Empress of Japan. The General has been a famous soldier, is a great explorer, having ridden across Siberia on horseback. The ship company is to finish loading her out cargo on the Sea. The Cybaline will come direct here instead of going to the Sound first, to complete the Ganges cargo.

CONSERVATIVES EXPECT TO WIN

Belief That the Days of Ross Rule in Ontario are Ended.

From Our Own Correspondent.

Toronto, May 28.—The result of the provincial elections is most uncertain. Both parties are confident of victory, and impartial minds look for a close contest with probable defeat of the Ross government. The "Time for change" and "Election corruption," cries are having their effect on old-time Liberals, and Conservatives claim they will lose only two or three seats, while they expect to gain one in Ottawa, Kingston, Brockville, Lennox, West Northumberland, East Northumberland, East Peterborough, West York, South Westwotth, South Wellington, South Norfolk, North Waterloo, London, North Essex, West Huron, East Wellington, Peel, Halton and East Lambton.

The Liberal party admit their likely loss of South Wellington, East Northumberland, South Northfolk, North Essex, West Huron and North Waterloo, but they expect to hold every other seat that supported the government, and announce that they will win East and West Victoria, East and Centre Simcoe, South and North Grey, North Westwotth, East Middlesex, East Elgin, South Perth, Stormont, Glengarry, Prince Edward and West Durham, with good prospects in North Ontario, Frontenac, South Waterloo and West Hamilton. New Ontario will likely return four Conservatives and three Liberals, the latter likely being Comeau in Port Arthur, Cameron in Rat Portage, and James in East Nipissing. Hon. Mr. Gibson is in danger of defeat in East Wellington, and Hon. Mr. Davis is counted upon by Conservatives to lose his seat in North York. In Toronto Mr. Nesbitt seems certain of victory over G. F. Marter in the North. East and West are solidly Conservative, but Liberals have fair prospects of defeating J. J. Poy in the South, although that result is not probable.

Peterboro, May 28.—Proceedings have been entered to disqualify Hon. Mr. Stratton. Liberal candidate in West Peterboro, the grounds being that the ballots for use in the election were printed in his office, contrary to statute. If Miller, Conservative candidate is defeated, he will claim the election.

ARCTIC NEW YORK.

State Suffering With Severe Snow Storms.

Utica, N. Y., May 28.—Snow has fallen upon the highlands in this country today. In some places it has remained on the ground to the depth of an inch. Farmers say that a hard frost now means practically ruin of all crops and fruits.

Saranac Lake, N. Y., May 28.—A heavy snow storm has been raging here today. The thermometer registered 34 degrees.

# Dr. PRICE'S CREAM BAKING POWDER

For a third of a century American housewives have found Dr. Price's Baking Powder invariably a guarantee of pure, delicious and wholesome food.

Always makes the perfect biscuit, cake and bread.

PRICE BAKING POWDER CO., CHICAGO.

NOTE.—Baking powders made from alum and other harsh, caustic acids are lower in price, but inferior in work and injurious to the stomach.

## Anxiety For The Hatzie

Fears Entertained for Overdue Schooner—Queen City at Alberni.

Indians Find Bottle Message at Hesquiat—Movements of Sailing Ships.

The sealing schooner Hatzie, Capt. Daley, is much overdue, and grave fears are entertained for her. There has been much anxiety for the overdue schooner for some weeks, and yesterday when the steamer Queen City reached Alberni from Kyquoot, where the Indian hunters were shipped, without having brought any report of the missing vessel, the anxiety was greatly increased, and when the fact is considered that none of the other vessels of the fleet saw anything of the missing vessel during the season since she sailed from Kyquoot on February 15, there seems to be good grounds for the fears. The only hope is that the schooner has been disabled and lost her rudder and sails, in which case she would have run very short of provisions by now.

The Hatzie sailed from Victoria on January 10 with six white men on board. These were Capt. Daley, master; Capt. P. Farley, mate; A. Medina, P. Dooley, W. Christy and J. Carlew. The latter was the first to be missed, and when the fact is considered that none of the other vessels of the fleet saw anything of the missing vessel during the season since she sailed from Kyquoot on February 15, there seems to be good grounds for the fears. The only hope is that the schooner has been disabled and lost her rudder and sails, in which case she would have run very short of provisions by now.

The Hatzie was 17 years old. She was formerly the steam schooner Dolphin, of Capt. J. D. Warrick, and was sold in 1885 to William Olsen, who christened her the Louis Olsen. She was operated as a pilot boat off the Columbia river for some time, and then went sealing again. She was engaged in smuggling opium for one Williams, since deceased, some time afterwards, and was at one time seized and taken to San Francisco, where the vessel was almost pulled to pieces by the customs authorities, who had been informed by some party, who had a quarrel with Williams, that the opium was on board. All their search, however, failed to find the opium, which was hidden in the tube in which the shaft ran when she was a steamer. She was afterwards purchased by Capt. Daley, who rechristened her the Hatzie.

Capt. Daley, the master of the overdue schooner, who is married and has a wife and family residing here, is an old-time sealer. He hails from Cape Breton, and before coming to this coast he sailed in deep water vessels out of the Cape Breton and Nova Scotia ports, being mate on some vessels with Capt. Charles Hackett, of this city. He brought the schooner Willie McGowan around to Victoria and sealed in her for some time. He was seized in company with the schooner Ariel off the Copper islands by the Russian cruiser Kotick, and the schooner was left rotting for years at Petropaulofski, and Capt. Daley and his crew spent some time in the Russian prison suffering from lack of food. The story of which has been told in detail in the Colonist. The Russian government recently recompensed the owners and crew of the schooner, in common with the other schooners' owners and crews, seized by the Aleut, Zabiaka and Kotick at that time, for the illegal seizures.

Capt. P. F. Farley, who was mate on the schooner, took the vessel out last spring as master. He was married about six months before starting on his present trip, and his wife resides here. Capt. Farley came to this coast in 1890. He was boatsteerer on the Pathfinder and afterwards mate on the Penelope, and then master of the schooner Ariel. He is a well known sealer. A. Medina is a resident of Victoria. W. Christy and P. Dooley are also local men, and all have been engaged sealing previously.

The Indians of Kyquoot have not yet given up hope for the schooner, although there is general sorrow there on account of the anxiety for the missing vessel. There custom is, when hope has been abandoned, to burn the houses of the sealers who were on the missing schooner.

### SAILING FLEET.

Lumber Ships Sail From Chemainus.

The bark Star of Bengal is in the Royal Roads awaiting a crew, and will sail today for Port Adelaide with a cargo of lumber from Chemainus. She was towed down by the tug Lorne, which passed up yesterday to Chemainus for her, after towing the ship Charmer to sea. The Charmer is bound to Dutch Harbor with

a cargo of coal. The ship Jabez B. Howland has been chartered to load coal at Comox for the same destination. The American schooner Frank W. Howe, which has been having such a time with her crew, who have taken many libel suits against her at Honolulu, passed up from sea yesterday en route to Port Townsend from Honolulu, where she went in distress on her way from Maui to Port Townsend. The ship King Cyrus sailed yesterday morning from Chemainus for Sydney and Vancouver. The Norwegian bark Ida arrived at Shields from Hastings on Thursday last. She sailed from Vancouver on December 20 with 489,880 feet of lumber. The ship Alex. Blomquist arrived at Plymouth last Friday from Tacoma. Bark Antelope left Kahului on May 10 for Lady-smith.

### LOST WITH CARGO.

Steamer Camano Capsized in the Upper Columbia.

A despatch from Wenatchee, says the steamer Camano, of the C. & O. steamer line, in charge of Capt. John Barrett, was lost on Tuesday while crossing the Entiat rapids. She was loaded with 565 sacks of wheat, and is thought to be a complete loss. L. B. Doyal, of Wenatchee, deck hand on the Camano, was drowned. The rest of the crew made their own way to the shore, or were rescued by skiffs. The Camano had just finished unloading at the Entiat station, and as soon as she swung into the stream was caught by an undercurrent and capsized. The total loss will reach \$75,000. The Camano was the most famous of upper Columbia steamers, having traversed 100 miles of virgin water above Brewster, less than one month ago.

### BOTTLE MESSAGE.

What Purports to Be a Note From the Lost Condor Found at Hesquiat.

Steamer Queen City, Capt. Townsend, arrived at Alberni yesterday from Capt. Scott and way ports on the West Coast, after a fast passage, having been a day late in leaving. The Queen City is bringing a bottle containing what purports to be a message from the lost warship Condor, which sank at sea after leaving here for the South Seas on December 2. This message, which has hardly the appearance of a genuine note from the lost vessel, is being despatched to the British Admiralty by W. Dawley, a coast storekeeper, to whom it was given by the Indians.

The message, which is written with ink on a small piece of paper, reads as follows: "Mid-ocean, Jan. 5th, 1902.—H.M.S. Condor. Ship sank. All lost except first officers and two middies, who escaped in small boat. We are at the sea's mercy."

"A. K. RODGERS."

The signature is somewhat blurred, but it reads Rodgers. The bottle containing the message was picked up by the Hesquiat Indians a few days ago.

The date would indicate, aside from the other indications, that the message was a fake one, set adrift by some one whom the fool-killer has overlooked in his rounds, for all indications point to the fact that the Condor went from the coast on December 31, 4, soon after she left. The only ship's boat from the unfortunate vessel which reached the coast was picked up by the Ahousett Indians on January 8, and this, had, from all appearances, been washed from the lashings in the steamer's davits, and not been launched. The appearances are against the genuineness of the message.

### GOING TO CHINA.

Virago and Sparrowhawk Will Go Across the Pacific.

The torpedo boat destroyers Virago and Sparrowhawk will soon leave for China from Esquimalt. They were designated for China last summer and have since been lying for the greater part of the time alongside the wharves at Esquimalt, where the boiler makers and machinists have been at work strengthening them for the long voyage. Heavy steel braces have been placed in the centre of the vessels to strengthen them. It is stated at Esquimalt that H. M. S. Arcturion, Capt. Statten, which left Esquimalt at the time of the Boxer troubles, will come over to convey the two torpedo boat destroyers to China. The withstanding of the two craft, and the reduction of the vessels on this station in favor of the vessels at Esquimalt, found little favor at Esquimalt, and strong recommendations are being made to have the torpedo boat destroyers, or another cruiser, sent here.

H. M. S. Arcturion has gone to Comox to put in her firing practice. H. M. S. Shearwater has just completed her big gun practice in the Straits. She will shortly proceed to Comox. Torpedo boat 23 will go with the sloop and cruiser to the scene of the wreck of the steam collier Bristol, which lies submerged off Green Island, near Dixon entrance. Ar-

Steamer Tees, when she sails for Naas and way ports, tonight, will have among her passengers Capt. Owens, Driver McHardy and others, who are going again to the scene of the wreck of the steam collier Bristol, which lies submerged off Green Island, near Dixon entrance. Ar-

Salvage Crew Leave for the Scene of the Wreck on Steamer Tees.

Steamer Tees, when she sails for Naas and way ports, tonight, will have among her passengers Capt. Owens, Driver McHardy and others, who are going again to the scene of the wreck of the steam collier Bristol, which lies submerged off Green Island, near Dixon entrance. Ar-

fengements will be made after the examination by the party for the salvage of the wrecked collier. The boilers of the lost vessel are expected to more than pay the salvage company alone, for they were recently put in by the Albion Iron Works at a heavy cost. A life buoy of the Bristol was recently found off Dundas island. A life buoy of the Schooner Honolulu was found in the same locality. This shows again how the currents carry the floating northward, for the Honolulu has been running from Port Townsend and the Sound to Honolulu, and returned about a month ago in distress, after being buffeted by a storm off the Cape when the life buoy was in all probability lost from the vessel.

### GOOD TRIAL.

Steamer Venture Makes Satisfactory Run on Initial Trip.

Steamer Venture, the new steam freighter built for N. P. Shaw & Co., by the Victoria Machinery Depot, went out on her trial trip yesterday evening, with Capt. Otto Buckholz at the wheel, and Mr. Shaw and a party of guests, ladies and gentlemen, on board. The new steamer, which was designed specially for the live stock carrying trade with Skagway from Victoria and Vancouver, made a good run on her trial, her engines worked very satisfactorily and her pumps worked well. She made about eight knots, her best speed being four nautical miles in 23 minutes. The trial was considered a very satisfactory one. The new steamer will commence work in carrying cattle and live stock North in a few days.

### THE READ ARRIVES.

Was Towed to Port Last Night by the Tug Wanderer.

The ship Ellen A. Read, which left Manila 100 days ago, and put into Honolulu on March 3 in distress, was towed into the Royal Roads last night by the tug Wanderer, and is now in the harbor. The Read has therefore made a fast trip from the island port, although so long on her voyage from the Philippines. Mrs. McQuarrie and daughter accompanied the captain to Honolulu, but they took passage from there by steamer, and have arrived at the Golden Gate.

### MARINE NOTES.

The tug Vancouver, while running for shelter into Shoal bay, destroyed the beacon, and a notice to mariners has been issued by Capt. Gaudin, local agent of marine and fisheries, as follows: "Pending the erection of Shoal Point beacon, which has been destroyed by some passing steamer, the red beacon light at the entrance to Victoria harbor will not be exhibited."

Steamer Unicorn arrived at the outer wharf yesterday morning with 900 cases of salmon.

Steamer City of Puebla reached port last night from San Francisco. She brought 210 passengers, 1200 salmon, of whom 21 departed here, and the steamer landed 85 tons of general cargo at the outer wharf for local merchants. Steamer Umattila will sail for the Golden Gate tonight.

Steamer Glenogle will sail from the outer wharf today for Yokohama and ports of China and Japan. She will have a large cargo.

Steamer Tees sails for Naas and way ports tonight. Steamer Amur will sail tomorrow night for Skagway, and the steamer Cottage City will follow her to the Lynn canal port on Saturday morning, sailing from the outer wharf at 6 a.m.

**Mr. J. R. Anderson Says Crop**  
**Outlook in Upper Country**  
**Is Favorable.**

**Creamery Being Erected Near**  
**Armstrong—Cattle Ranges**  
**in Fine Condition.**

Mr. J. R. Anderson, the deputy minister of agriculture, returned last night after an extended visit to the Northwest Territories and the interior of the province. At Calgary he attended the live stock show and sale, a report of which appeared in the Colonist a few days ago. After leaving Calgary, which he was fortunate enough to do the day before the break in the main line, he was stopped three days at Banff, owing to the wash-out. The storm which occasioned this stoppage in traffic was reported to be the most severe which has occurred in that section of the country for many years. Rain came down in torrents and the wind howled with a force of 60 miles an hour. From delayed passengers it was learned that cattle were seen dead from exposure in the vicinity of Cochrane.

Nevertheless the season in the Northwest Territories has so far been most favorable for stock raising, and prosperity is apparent and expected as a result. The immigration is unprecedentedly large and everywhere are to be seen caravans of settlers' effects. The people were everywhere most hospitable in their treatment of the visitors from the East, and the visitors were doing everything for their comfort. Visits were paid to some of the ranches in the vicinity of Calgary and arrangements were made for roping and round-up cattle and broncho-breaking for their education, but which the visitors were fixed to decline. This decision, it afterwards transpired, was most fortunate, as the storm occurred on the very day the arrangements were proposed.

Mr. Hudson, live stock commissioner, Ottawa; Mr. Grisdale, agriculturist, Central Experimental farm, Ottawa; Mr. Creelman, superintendent of Farmers' Institutes, Ontario; Mr. Hudson, Mr. Anderson and some others came West as far as Banff. Mr. Hudson, owing to indisposition, had to return from this point, the rest coming West.

Prof. G. E. Day, of Guelph, went to Edmonton, where he got detained by the floods, and so was unable to join Messrs. Anderson and Grisdale at Okanagan, where some meetings of Farmers' Institutes were arranged. The subject of creameries, which is a live one in this part, was taken up and discussed. The erection of a creamery, which has long been talked about, has now assumed a tangible shape, and the buildings are now being undertaken near Armstrong. There seems to be some hesitation among the people owing to the scarcity of milk, and the fact that the creamery, if they went in at all they should look forward to future possibilities. This advice will no doubt be acted upon, and a plant will be installed capable of handling the product of the district, if necessary. This district, especially that part between Armstrong and Mara, is as well adapted to dairying as any part of the province, and with the advent of creameries there is little doubt but that it will take a foremost rank in the line of agricultural industry, and instead of one creamery only, every previous experience points to the probability of many creameries being erected all through that valley and Salmon Arm, when the success of one is assured. Mr. Anderson says that the creamery project has been seen a better promise of crops and fruit all through the upper country. From the abundance of rain also, the ranges have a wonderful growth of grass, which augurs well for the live stock industry.

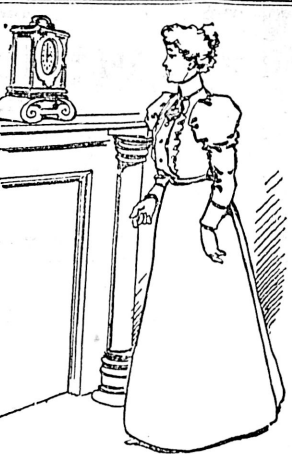

The Commonage near Vernon was visited, and the crops in this place looked as well as any in the valley. By way of explanation, it may be said that the Commonage is the high land south of Vernon, lying between Long and Okanagan lakes, which, in consequence of the absence of forest, vegetation and fertility, was carefully avoided by the first settlers, and it was reserved as a commonage for some years. Of late, however, settlers have come in, and on its being thrown open, many localities were taken up. To the surprise of everyone, some of the best land in the valley have been taken off this land, and there is every indication that this record will be kept up this season, at least.

Equally good indications of abundant harvests were apparent all along the line, and the greenness of the ranges in the vicinity of Kamloops and Ashcroft pointed to a very successful year. Prof. Day, after getting away from Edmonton, proceeded direct to Chilliwack, where a meeting will be held, after which he will come to Victoria. Mr. Creelman is now in Victoria, having accompanied Mr. Hudson to Cowichan, where he addressed a meeting of the Farmers' Institute, and will have an interview with the Minister of Agriculture before he leaves for the East.

Mr. Grisdale accompanied Mr. Anderson to the Coast, and after remaining over one day in Vancouver, came over yesterday by boat and will proceed East via Seattle and Mission. It is a matter of regret that Mr. Robt. Miller, president of the Dominion Short-horn Breeders' association, could not come further West than Calgary, as business engagements took him back immediately after the sale of the cattle. Mr. Miller is much pleased with the agricultural outlook of the province. The deep, rich soil, as evidenced by the luxuriant forest growth, which he describes as semi-tropical, is indicative of its possibilities for successful agricultural operations in the future. The class of settlers he has met impresses him most favorably. He says that everywhere he has been in the province they seem, from their surroundings and the substantial nature of improvements, to be a permanent class.

To Mr. F. W. Hodson, the Hon. G. H. V. Bulven, commissioner, and Mr. G. W. Peterson, the energetic deputy commissioner of agriculture of the Northwest Territories, is no doubt due much of the success of the live stock show and sale at Calgary. Both these gentlemen are well up in the subject of the agricultural possibilities of the Territories, and spoke at all the meetings which were held. The hope was everywhere expressed that not only in the Northwest Territories, but in British Columbia and in the East, such opinion is that such meetings are productive of much good to the agricultural interests of the Dominion generally.

**SCRIPTURE UNION.**  
Origin of the Society Which Now Numbers Its Members by the Thousand.

The Victoria members of the Scripture Union gathered in Mrs. Grisdale's garden yesterday afternoon to hear the address of F. Drury, B.A., Oxford, on the "Work of the Scripture Union." Mr. Drury is on a trip round the world in the interests of the union, and has spent six months in Canada. Bishop Grisdale, Mrs. Grisdale and Miss Grisdale received the visitors, and Bishop Grisdale introduced the lecturer. Mr. Drury explained how the union started. Thirty-four years ago a gentleman was walking along the beach at a health resort in the Old Country, where some boys and girls were playing. He stopped and began to write in the sand with his walking stick. The boys and girls gathered around him and found that he had written "God is Love." At his suggestion they ran to a cliff near by and gathered stones, where they placed round the words. The gentleman then told the boys and girls some stories, but when he was leaving, a little girl asked him to return the next day, tell them some more stories and let them help him with a text. He did so, and upon his return to London, mentioned the matter to clergymen friends. Visits were afterwards made to the various watering places in England and Scotland. This was the origin of the Scripture Union, which provides that each member shall read a portion of the Scriptures every day. By this plan, in five years, the Bible has been read completely. The membership of the union has grown very rapidly. In Great Britain there are 500,000 members; in Japan, 10,000. The lecture was thoroughly enjoyed by the audience. Afternoon tea was served at the conclusion. Mr. Drury gave a most interesting lecture last night in Christ Church school-room on "University Life at Oxford." He treated the subject from an educational, social and athletic point of view. The lecture was illustrated by a beautiful series of magic lantern slides, shown by Mr. Maynard. The last slide represented a group of Oxford undergraduates, all of whom are active members of the Scripture Union, in the interest of which Mr. Drury is traveling round the world.

There ought to be a large gathering at the Christ Church schoolroom this afternoon at 4 o'clock, when Mr. Drury will give an address upon the work. Members of the union, old and young, ought to make it a point of honor to be present. Mr. Drury will speak at the mid-week meeting in St. Andrew's church tonight at 8 o'clock. The public is cordially invited.

**INSPECTION PROGRAMME.**  
General Parsons Spends the Next Few Days Overseeing the Work of Men of This Station.

Major-General Sir Charles Parsons, K. C. M. G., commander-in-chief of the Imperial forces in Canada, begins his inspection of the establishment comprising the station this morning, and will be engaged in this work until Tuesday of next week.

Yesterday was spent by Gen. Parsons in conferring with the heads of the various departments of the station. A formal call was also made upon Admiral Bickford, who received the General's party on the flag ship H. M. S. Grafton with the customary honors.

This morning will be held the inspection of the batteries at Macaulay Point, from which gun practice with the 6-inch breech-loaders will be held. This begins at 11 o'clock, and will be followed at noon with the inspection of the submarine mining and army ordnance establishments at Signal Hill, while from Black Rock Battery and Duntze Hill emplacements gun practice with the Q.-F. guns will also take place.

On Friday morning at 9:30 o'clock the parade of the Royal Engineers company and the Sappers will be held with the inspection of barracks, kits, books, institutes, etc., of the garrison.

This will be followed on Saturday at the same hour by the parade of the Artillery, No. 83 company, R. G. A., being then to be inspected in marching order.

Monday concludes the round, that day being devoted to the work of defence at Red Hill.

The subject has been more or less discussed for the last 15 years, but the recent radical change in the conditions that previously existed on the island will likely make it an important issue at the next election. This change in condition was largely brought about by the construction of the Reid-Newfoundland railway, which runs across the island almost in a semi-circle from Port aux Basques to St. John's, the capital. The railway has revolutionized Newfoundland, so to speak. Formerly the Newfoundlanders were altogether dependent upon the fisheries, and there were fre-

## SUMMER COLDS

Produce Chronic Catarrh.

Mrs. Henriette C. Olberg, superintendent of the Flax and Hemp Exhibition at the Omaha Exhibition, writes from Albert Lea, Minn., as follows:

"This spring I contracted an aggravating cold, having been exposed to the damp weather. Catarrh of my throat and head followed, which persisted in remaining, notwithstanding I applied the usual remedies.

"Reading of the merits of Peruna in the papers, I decided to try it and soon found that all that has been said of your medicine in such cases is true.

"I am very pleased with the satisfactory results obtained from using Peruna, am entirely well, and consider it a most valuable family medicine."

HENRIETTE C. OLBORG.

Summer colds require prompt treatment. They are always grave, and sometimes dangerous. The promptness and surety with which Peruna acts in these cases has saved many lives. A large dose of Peruna should be taken at the first appearance of a cold in summer, followed by small and repeated doses. There is no other remedy that medical science can furnish, so reliable and quick in its action as Peruna.

Address The Peruna Medicine Company, Columbus, Ohio, for a free book entitled "Summer Catarrh," which treats of the catarrhal diseases peculiar to summer.

## Amendments

City Council Exercised By Mr. Oliver's Amendments to Municipal Laws.

May Be Excellent For Country But Will Not Work in Town.

The City Council met in adjourned meeting last evening. His Worship Mayor Hayward presiding, all the aldermen being present with the exception of Ald. Barnard and Williams. The rules being suspended, the council took up the amendments to the Municipal Clauses Act introduced by John Oliver, M. P. P. for Delta, and now being considered by the Legislature. In these the city is said to be of such a nature as to make it absolutely impossible to get so many as the 8,000 voters' names of this city ready and perfect within the time provided by the act. These changes may be quite workable in the rural municipalities, but in this city it gives only three days to perform the work, and past experience in this city has shown that only 48 weeks is short enough time. It was claimed that there was neither enough time provided for the citizens to attend to their registration, nor the civic staff to index and arrange the lists, nor for the printers to get out the printed copies, let alone to revise the proofs.

After some discussion on motion of Ald. Cameron, seconded by Ald. McCandless, the matter was referred to the Legislative committee. City Clerk Dowler was also instructed to go over to the Legislature with the aldermen to assist in explaining the urgency of the matter, he having for many years now compiled these lists for this city. The matter was set forth in the following letter:

To His Worship Mayor Hayward:  
Sir—I beg to call your attention to the provisions of Sec. 3 of Bill No. 67, introduced in the Legislature, which reads as follows: "Section 3 of said chapter 68 is hereby repealed and the following substituted therefor: 3. In city municipalities the list of voters shall be closed on or before the 5th day of January of the year in which nomination are made, and within three days after the closing thereof, the clerk of the municipality shall cause to be printed and certified copy of such voters' list, ten or more copies of which shall be posted in conspicuous public places in the municipality."

It may be possible that these provisions are capable of being followed out in country municipalities where the number of voters is limited, but in a city municipality like Victoria it is different. In order that it may be easy to form an idea of the time involved in the proper printing of the annual voters' list of this city, I would state that the total number of voters, as given in the last list prepared, being for 1962, is as follows: North Ward, 1,044; Central Ward, 1,074; South Ward, 1,343; Mayor's names in all lists of 8,000. When it is remembered that each one of these names has to be checked with the printed names, at least twice before they can be said to be correct, or in a position to be certified to, and when the time actually taken up in the printing of the list is added to the work, some conception can be had of the time which is absolutely necessary to a proper printing of so large a list.

The enclosed specification, which has been in use for a number of years in connection with the printing of the annual voters' list, clearly shows that the period of not less than six weeks has been considered necessary for this work, and that more than once when the Mayor was kept up until 12 o'clock at night in order that the names might be certain for the day appointed by statute, and this for no other reason than that the printer was unable to complete the work before that hour, although the printer was kept working until 12 o'clock at night.

In the printing of the lists, the printer prints the names first in gaily form, and then these forms have been corrected and the list or lists are ready to be set up, they are arranged in columns and after the printing of the list is complete, the operation being of course after they are certified as correct.

As to the above section, I have no hesitation in saying that the carrying out of its provisions with reference to the preparation of the voters' lists of this city for the annual municipal election, is an absolute impossibility. Sec. 2 of the bill, the most important of provisions, states that the list shall be closed on or before the 5th day of January, and that the voters' list shall be different from that followed hitherto, still, it is doubtful if the actual number of names that have to be printed in this list is less than 8,000, or any less than at present. The way that matters will work out under the new law, so far as I can see, will be as follows:

Voters are given to the 31st day of December inclusive, wherein to make a statutory declaration as to their eligibility. At the first sign of backache and urinary disorders use Dr. Chase's Kidney-Liver Pills and you can be certain of prompt relief and cure. One pill a dose, 25 cents a box.

The above section says: "A list of voters shall be closed on or before the 5th day of January." The object of this uncertainty as to the day on which the voters' list shall close is difficult to see, while the advantage of having one specific day for the closing of the list is apparent, as it does away with any question which may arise as to when the list was actually closed. But granting that the list closes on the 5th day of January, the election should fall on a Monday, and three days should be given to the list issued, certified to and posted, only seven days will be given the public who are interested in ascertaining whether their names are on the list, and have them inserted in the event of their being improperly omitted.

As to Sec. 2 of the bill, it would appear that the words "assessor or" have been omitted before the words "clerk of the municipality," in the 12th line; they occur in sub-section 3 of "B," and should the bill be recommitted, it is to be hoped that the section may be amended so as to make one part conform to the other.

I have prepared the voters' lists for this municipality for many years, and if I may be permitted to offer a suggestion in regard to this matter, it would be, that the method for receiving declarations as contemplated under section 2 of the bill, be the month of November, instead of December, and that section 3 of the original act remain as it is without alteration, or amendment, or repeal. If this were done there would be no need of the voters' list, and the voters would be able to get a certified copy of the lists ready, and it would afford, if the lists were posted after the 3rd Monday in December, one month to the public to acquaint themselves as to whether their names were on the list and remedy, if necessary, any errors in spelling or omission that may have occurred under section 4 of the bill, which section, I understand, has already been passed in committee.

If the section (3) passes as framed, it will render abortive any attempt to hold a municipal election in the city of Victoria. W. J. DOWLER, C. M. C.

Supt. Hutchinson, of the city's electric light plant, then reported in person an accident which had happened the preceding night. In this a 74-inch fly wheel and other parts of machinery went to pieces, and the matter being so urgent, the superintendent had already asked the various departments to tender the repairs required. Three tenders were already in, from Andrew Gray for \$177, from the Victoria Machinery Depot for \$198 and \$250, and from the Albion Iron Works for \$257. The difficulty was largely occasioned by the variation of cost of day, and day-and-night labor. The matter was then referred to the purchasing agent and Supt. Hutchinson, with power to act, as was also the purchase of a belt which has to be got from Vancouver.

The question of the fuel supply for the electric light station was then taken up. In this an offer of sawdust fuel had been made by the Sawdust mill for \$2400 a year. The matter was, however, referred pending the introduction of a motion by Ald. Worthington, on Monday next.

The following letter from the Tourists' association was then read: Gentlemen—We have pleasure in informing you that the work of the Tourist Association is now well established. Energetic methods have been taken by the executive of the association to bring before the travelling public of the United States, Canada, and also the old country, the attractions of the city as a tourist resort. Also, in addition to this our travelling representative has been sent through Seattle, Tacoma, Portland, Los Angeles, Santa Barbara, Del Monte, Redlands, Riverside, Sacramento and other cities and districts in the South, to make known to the residents and business men of these districts our attractions as a summer resort. From the time of these visits by the various newspapers of the cities through which he passed and the aid more copies of which shall be posted in conspicuous public places in the municipality.

It may be possible that these provisions are capable of being followed out in country municipalities where the number of voters is limited, but in a city municipality like Victoria it is different. In order that it may be easy to form an idea of the time involved in the proper printing of the annual voters' list of this city, I would state that the total number of voters, as given in the last list prepared, being for 1962, is as follows: North Ward, 1,044; Central Ward, 1,074; South Ward, 1,343; Mayor's names in all lists of 8,000. When it is remembered that each one of these names has to be checked with the printed names, at least twice before they can be said to be correct, or in a position to be certified to, and when the time actually taken up in the printing of the list is added to the work, some conception can be had of the time which is absolutely necessary to a proper printing of so large a list.

The enclosed specification, which has been in use for a number of years in connection with the printing of the annual voters' list, clearly shows that the period of not less than six weeks has been considered necessary for this work, and that more than once when the Mayor was kept up until 12 o'clock at night in order that the names might be certain for the day appointed by statute, and this for no other reason than that the printer was unable to complete the work before that hour, although the printer was kept working until 12 o'clock at night.

In the printing of the lists, the printer prints the names first in gaily form, and then these forms have been corrected and the list or lists are ready to be set up, they are arranged in columns and after the printing of the list is complete, the operation being of course after they are certified as correct.

As to the above section, I have no hesitation in saying that the carrying out of its provisions with reference to the preparation of the voters' lists of this city for the annual municipal election, is an absolute impossibility. Sec. 2 of the bill, the most important of provisions, states that the list shall be closed on or before the 5th day of January, and that the voters' list shall be different from that followed hitherto, still, it is doubtful if the actual number of names that have to be printed in this list is less than 8,000, or any less than at present. The way that matters will work out under the new law, so far as I can see, will be as follows:

Voters are given to the 31st day of December inclusive, wherein to make a statutory declaration as to their eligibility. At the first sign of backache and urinary disorders use Dr. Chase's Kidney-Liver Pills and you can be certain of prompt relief and cure. One pill a dose, 25 cents a box.

The above section says: "A list of voters shall be closed on or before the 5th day of January." The object of this uncertainty as to the day on which the voters' list shall close is difficult to see, while the advantage of having one specific day for the closing of the list is apparent, as it does away with any question which may arise as to when the list was actually closed. But granting that the list closes on the 5th day of January, the election should fall on a Monday, and three days should be given to the list issued, certified to and posted, only seven days will be given the public who are interested in ascertaining whether their names are on the list, and have them inserted in the event of their being improperly omitted.

# NERVOUS TROUBLES

There is no torture more acute and intolerable than nervousness. A nervous person is in a state of constant irritation by day and sleeplessness by night. The sufferer starts at every noise, is worried by a feeling that something awful is going to happen; is shaky, depressed, and, although in a constantly exhausted state, is unable to sit or lie still. If you are nervous or worried or suffer from a combination of languor and constant irritation, you need a nerve food and nerve tonic, and

## Dr. Williams' Pink Pills for Pale People

are absolutely the best thing in the world for you. You will find after taking them that your feelings of distress and worry are being rapidly replaced by strength, confidence, and a feeling that you are on the road to full and complete health and strength.

Get rid of your nervousness in the only possible way—by building up strong, steady nerves.

Miss Ida Doucet, Bathurst, N. B., says:—"Words fail me to adequately express what I owe to Dr. Williams' Pink Pills. I was attacked with a gripe, the after-effects of which took the form of nervous exhaustion. The least noise would startle me and I would tremble for some time. I used several medicines but they did not help me, and as time went on I was growing worse and was so nervous that I was afraid to remain alone in a room. I slept badly at night and would frequently awake with a start that would compel me to scream. The trouble told on me to such an extent that my friends feared for my recovery. At this time an aunt urged me to try Dr. Williams' Pink Pills and after using eight boxes I was completely restored to health, and I feel that Dr. Williams' Pink Pills saved my life. I sincerely hope my experience will benefit some other sufferer."

Always look at the box when you ask for Dr. Williams' Pink Pills for Pale People. If the full name is not on the box, you are not getting what you ask for. Refuse all so-called "just-as-good-as," and if you have any trouble getting the pills, they will be sent you by mail post paid at 50 cents a box or six boxes for \$2.50, by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

## A Dairymen's Paradise

Supt. Creelman of Ontario's Department of Agriculture peaks of Cowichan.

And Gives Some Pointers Which all Farmers Might Well Notice.

Mr. G. C. Creelman, of Toronto, returned yesterday from Duncan, where he has for a few days past been the guest of Geo. H. Halden, ex-secretary of the Live Stock association of this province.

Mr. Creelman is the superintendent of farmers institutes and agricultural societies for the province of Ontario. Coming out some few weeks ago to the live stock stock sale at Calgary, he seized the opportunity to push onwards to the Coast, where he has now spent a fortnight, and has been addressing some of the institutes, particularly that of Cowichan.

When passing Kamloops he stopped off to see how the stockers imported from Ontario last fall were getting on, and on all sides found the ranchers pleased with the results of this phase of the Live Stock association's work. So much was this the case that one of them told Mr. Creelman that he was ready to take \$10,000 worth more this coming fall.

Coming down, Mr. Creelman was particularly struck with the land of the east side of Vancouver Island, the low land of which seemed to him to be especially adapted to general farming. Throughout the parts visited by him, the fruit growing industry seemed to be of great promise, the trees, and particularly the apple trees, maturing in about half the time required in the province of Ontario. There such a tree as the Northern Spy—one of the finest of apples grown in the East—was to come into full bearing, while equal maturity was reached here in but six or eight.

The immense crops of hay too, and the readiness with which clover was found growing everywhere assured him that the land here would never require the diligent manuring now demanded in his own province, and that a fair rotation of crops would prevent all the evils of overcropping from which so much of the land in the East has so long suffered.

As a dairymen's country too, it was very hard to be surpassed. At the creamery at Duncan he saw there making nearly a quarter of a ton of butter a day, the rich native grasses completely taking the place of the grain ration elsewhere given to the cows in creamery work. Wholesale at 25 cents a pound the industry should prove a most profitable one to the farmers there.

He found, however, in visiting the farms, that the same mistake was noticeable as was to be found in the older provinces. Too many cows were kept of the not-worth-their-board class, and the richer native grasses completely taking the place of the grain ration elsewhere given to the cows in creamery work. Wholesale at 25 cents a pound the industry should prove a most profitable one to the farmers there.

through the creamery for some of the best of his cows, and thought that an average of \$50 could easily be maintained. This was far ahead of the returns of Ontario, and spoke volumes for the grasses and climatic and other conditions of Vancouver Island.

From what he saw, however, Mr. Creelman thought that the time had come for more attention to the planting of lucerne and other forages for the growing of which the province has already proved itself so well adapted. These would supplement the native grasses, and in addition provide a more balanced ration for winter feeding.

At Calgary the big sale had been a success. Some 220 animals, all pure-bred and chiefly bulls, had been sold at an average price of \$85.83 a piece. Amongst them Mr. Halden had picked up a fine car lot for some of the ranchers of this province.

An old-fashioned toddy—either hot or cold—is a great drink if made of Jesse Moore Whisky. A little sugar, a little water, and the pure stuff—Jesse Moore's Whisky.

**PERSONALS.**  
G. A. Brackett, Minneapolis, Minn., is at the New England.

Milton Oppenheimer, of Vancouver, is registered at the Vernon.

Mrs. Dan, of San Francisco, is a guest at the Vernon.

Mr. Shaw and wife, Puebla, Col., are staying at the Vernon.

W. Norris, a Vancouver traveler, is at the Victoria.

J. H. Darling and George Cowan, from Vancouver, registered at the Drifd last night.

That tired, languid feeling and dull headache is very disagreeable. Take Carter's Little Liver Pills before retiring. They will find relief. They never fail to do good.

# Physical Vitality

RECAINED FROM WEARING DR. McLAUGHLIN'S ELECTRIC BELT

5 a. m.....Calm.  
Noon.....8 miles east.  
5 p. m.....8 miles west.

Average state of weather—Fair. Rain—20 in. Sunshine—2 hours 48 minutes. Barometer at noon—Observed.....29.934  
Portland, Oregon.....29.946

NEW WESTMINSTER.  
Barometer at 5 p. m.—Corrected.....29.91

LOSS OF FLESH.  
If you find yourself falling below normal weight, there is danger. The use of fish oils can temporarily add weight, but will never build up healthy tissues. Dr. Chase's Nerve Food acts through the blood and nervous system, and carries new life and energy to every nerve and corner of the body. It regulates the various organs of the body, makes the appetite good, adds healthy flesh, and replaces the tissues wasted by disease. Naturally and gradually this food restores color to the cheeks, increases the weight of the body, and thoroughly overcomes disease.

Mrs. Malaprop—The young Mr. Jenkins. He's engaged to be married, you know. Mrs. Gable—Indeed? And is that the young woman with him now? Mrs. Malaprop—Yes, that's his fiancée—Philadelphia Press.

The most delightfully blended whisky known to the human palate is "Jesse Moore"—the standard for over fifty years.

Little Willie at restaurant—Pa! His father—What is it, Willie? Little Willie—This shad has got lots of silvers in it—Judge.

To get relief from indigestion, biliousness, constipation or torpid liver without disturbing the stomach or purging the bowels, take a few doses of Dr. Chase's Little Liver Pills. They will please you.

There is a good water supply on the property. Possession can be had at once, provided the crop is allowed for its value. PRICE \$10,500.

PEMBERTON & SON, 45 Fort Street

## Provincial Legislature

Opposition Waste Most of Afternoon Session in Determined Obstruction.

Good Progress Made With Bills in Committee of the Whole.

Legislative Chamber, May 28, 1902.

Mr. Speaker took the chair at 2:40 p. m.

Mr. McBride rose to a question of privilege. He presented certain passages in a Colonialist editorial, from which he was proceeding, and when called to order by Mr. Speaker.

The article complained of was as follows:

CURTIS AGAIN.

We are always glad to have some of the actual words of Smith Curtis, M.P., to publish. He speaks so much that he could not hit the mark every time. He says words which contain pearls of wisdom. But occasionally, under the influence of strong feeling, a perfect gem of eloquence drops from his lips. One of these he uttered yesterday, when he spoke the words, "Are we to submit to this, that our motto will be shut out?" Can quite imagine the bare possibility of such a thing rising Mr. Curtis to tragic earnestness. He probably believes that the constitution would be violated and the fabric of state in danger, if his words were closed, and that probably is why he keeps it so continually open. But we hasten to reassure Mr. Curtis. There is no danger to anybody or to anything if his mouth were closed, and were kept closed, except to himself. He might die of suppressed verbosity, which, the materia medica informs us, is a dangerous disease from which politicians are usually exempt. The talk made by the members of the opposition about the privileges of the minority is absurd. The privilege of every member of the House is in the keeping of the House itself, and the feeling of the House is expressed in the will of the majority. Rules of debate and precedents are for guidance, not for absolute submission. Some one must have made the first precedent, surely, and when good reason exists, precedents may be set as well as followed. Nor could any better reason exist for the modification of practice and the setting of a new precedent, than when the ancient practice has been taken advantage of for the purpose of contemptible obstruction. It might be argued that the legislature of subordinate jurisdiction is bound like a court of subordinate jurisdiction to follow the precedent of a legislature of higher jurisdiction. And that would be a good argument if the legislature of British Columbia were a legislature of subordinate jurisdiction. But it is not. Within the limits of its constitution, it is as supreme as the parliament of Great Britain. It has elected to follow May in unprovided cases. But that does not put May above the body which elected to follow his procedure. The legislature cannot elect to follow May to prescribe May, to make it a punishable offence to mention May within the precincts of the House, and with all due deference to that estimable authority, we sometimes wish it would. Without resorting to the fact that the House can interpret May in any way it chooses, and the interpretation cannot, we say cannot, be wrong, which the House makes. That is something which hide-bound lawyers like McPhillips and McBride and Curtis cannot understand. How they remind us of the scathing effective passages of the obstructionists of his day by one of Britain's greatest statesmen: "Disputing forms and precedents and circumstances, while the commonwealth high perishes for want of deeds of substance done with expedition and despatch." These words will understand it. The only thing to be done with such people is to bar them from representative positions, and that, we imagine, is the remedy which will be adopted by the people of the country.

The thanks of the country are due to Mr. Speaker Pooley for the firmness with which he firmly put down this dangerous attempt to make the Budget debate an engine for obstructing the business of the country. Mr. Pooley has ruled that it is in order to move the previous question in this province. The House sustained his ruling by four of a majority, and, upon further rebellion, by five. Mr. Hawthornthwaite registering his protest against the tactics of the opposition. That sets a precedent which we hope will never be forgotten in British Columbia. It is not a form of procedure which will be taken advantage of while debate is kept within reasonable limits, but it is one which forms a safeguard against an outflow of talk, of which everyone, except the talkers, is for the credit of the province, heartily ashamed. The member for Nelson may take some credit to himself. He grasped the situation and the only effective remedy. He then proceeded to apply it, and forced the House to admit that there was no other method to get on with business except the one which he proposed.

Hon. Mr. Eberts declared the question was not a question of privilege. He objected to Mr. McBride making a political speech under pretence of privilege. The government wished to proceed with business and were determined to do so without further delay.

After some argument by Messrs. McBride, McPhillips and Curtis, Mr. Speaker declared Mr. McBride out of order.

Mr. McBride appealed from the ruling of the chair, and was proceeding to argue in support of his appeal when he was again ruled out of order. He claimed the Colonialist article was a libel on the opposition, and insisted upon proceeding, being once more called to order. He would agree to withdraw his appeal if allowed to make an explanation. This was declined by the government.

Mr. McPhillips quoted from May in support of the appeal.

Hon. Mr. Prentice pointed out that if members were allowed to bring up every newspaper article which displeased them and comment upon it, there would be an end of all business.

Mr. McPhillips continued his citation of precedents from May, and Hansard until called to order, under House Rule No. 4.

Mr. McPhillips refused to cease talking until ordered to sit down. He obeyed.

Mr. Prentice moved the following amendment:

"(a). It shall be unlawful for any person, society, association, or organization of any kind existing, or doing business in this province by himself or herself, or by his agent, or his agent, or attorney, to induce, influence, or persuade a workman not to change from one place to another, or persuade a workman to induce, influence, or persuade a workman of any calling or class, to keep away from this province, through or by means of deceptive representations, false advertising or false pretences concerning the kind and character of the work to be done, or amount and character of the compensation to be paid for such work, or the sanitary or other conditions of employment, or as to the existence or non-existence of a strike or other trouble then pending between employer and employees."

By striking out clause 3 and inserting the following in lieu thereof:

"3. Any employer or workman from a locality outside this province, who has sustained any damages, by reason of any of the things prohibited in clauses 2 and 2 (a) of this act, shall have a right of action for the recovery of such damages sustained in consequence of the false or deceptive representations, false advertising and false pretences, used to induce such workman not to change or to change his place of employment, against any person, society, association or organization, directly or indirectly causing such damages."

He held that it would be very unfair to pass a drastic law affecting employers while workmen might commit the very offences complained of with perfect impunity. He hoped the honorable, the mover of the bill and the House generally would accept his very necessary amendment.

Mr. Curtis suggested that Mr. Hunter should bring in his amendments in the form of a separate bill.

Mr. Hunter asked if Mr. Curtis would promise to support such a bill if he brought it down?

Mr. Curtis said he would support such a bill if it was proved to him that employers were subject to the same grievances as the workmen.

## AUCTION

I am instructed to sell at my Rooms 77, 79 and 81 Douglas Street,

AUCTIONEER

ed the chair, but rose immediately, claiming a right to explain.

Mr. McBride was granted leave and withdrew his appeal.

He then moved the adjournment of the House in order to discuss the Colonialist article complained of.

Mr. Speaker held that the article did not affect the privileges of the House.

Mr. McBride insisted that the article was in the keeping of the House itself, and the feeling of the House is expressed in the will of the majority. Rules of debate and precedents are for guidance, not for absolute submission. Some one must have made the first precedent, surely, and when good reason exists, precedents may be set as well as followed. Nor could any better reason exist for the modification of practice and the setting of a new precedent, than when the ancient practice has been taken advantage of for the purpose of contemptible obstruction. It might be argued that the legislature of subordinate jurisdiction is bound like a court of subordinate jurisdiction to follow the precedent of a legislature of higher jurisdiction. And that would be a good argument if the legislature of British Columbia were a legislature of subordinate jurisdiction. But it is not. Within the limits of its constitution, it is as supreme as the parliament of Great Britain. It has elected to follow May in unprovided cases. But that does not put May above the body which elected to follow his procedure. The legislature cannot elect to follow May to prescribe May, to make it a punishable offence to mention May within the precincts of the House, and with all due deference to that estimable authority, we sometimes wish it would. Without resorting to the fact that the House can interpret May in any way it chooses, and the interpretation cannot, we say cannot, be wrong, which the House makes. That is something which hide-bound lawyers like McPhillips and McBride and Curtis cannot understand. How they remind us of the scathing effective passages of the obstructionists of his day by one of Britain's greatest statesmen: "Disputing forms and precedents and circumstances, while the commonwealth high perishes for want of deeds of substance done with expedition and despatch." These words will understand it. The only thing to be done with such people is to bar them from representative positions, and that, we imagine, is the remedy which will be adopted by the people of the country.

The thanks of the country are due to Mr. Speaker Pooley for the firmness with which he firmly put down this dangerous attempt to make the Budget debate an engine for obstructing the business of the country. Mr. Pooley has ruled that it is in order to move the previous question in this province. The House sustained his ruling by four of a majority, and, upon further rebellion, by five. Mr. Hawthornthwaite registering his protest against the tactics of the opposition. That sets a precedent which we hope will never be forgotten in British Columbia. It is not a form of procedure which will be taken advantage of while debate is kept within reasonable limits, but it is one which forms a safeguard against an outflow of talk, of which everyone, except the talkers, is for the credit of the province, heartily ashamed. The member for Nelson may take some credit to himself. He grasped the situation and the only effective remedy. He then proceeded to apply it, and forced the House to admit that there was no other method to get on with business except the one which he proposed.

After some argument by Messrs. McBride, McPhillips and Curtis, Mr. Speaker declared Mr. McBride out of order.

Mr. McBride appealed from the ruling of the chair, and was proceeding to argue in support of his appeal when he was again ruled out of order. He claimed the Colonialist article was a libel on the opposition, and insisted upon proceeding, being once more called to order. He would agree to withdraw his appeal if allowed to make an explanation. This was declined by the government.

Mr. McPhillips quoted from May in support of the appeal.

Hon. Mr. Prentice pointed out that if members were allowed to bring up every newspaper article which displeased them and comment upon it, there would be an end of all business.

Mr. McPhillips continued his citation of precedents from May, and Hansard until called to order, under House Rule No. 4.

Mr. McPhillips refused to cease talking until ordered to sit down. He obeyed.

Mr. Prentice moved the following amendment:

"(a). It shall be unlawful for any person, society, association, or organization of any kind existing, or doing business in this province by himself or herself, or by his agent, or his agent, or attorney, to induce, influence, or persuade a workman not to change from one place to another, or persuade a workman to induce, influence, or persuade a workman of any calling or class, to keep away from this province, through or by means of deceptive representations, false advertising or false pretences concerning the kind and character of the work to be done, or amount and character of the compensation to be paid for such work, or the sanitary or other conditions of employment, or as to the existence or non-existence of a strike or other trouble then pending between employer and employees."

By striking out clause 3 and inserting the following in lieu thereof:

"3. Any employer or workman from a locality outside this province, who has sustained any damages, by reason of any of the things prohibited in clauses 2 and 2 (a) of this act, shall have a right of action for the recovery of such damages sustained in consequence of the false or deceptive representations, false advertising and false pretences, used to induce such workman not to change or to change his place of employment, against any person, society, association or organization, directly or indirectly causing such damages."

He held that it would be very unfair to pass a drastic law affecting employers while workmen might commit the very offences complained of with perfect impunity. He hoped the honorable, the mover of the bill and the House generally would accept his very necessary amendment.

Mr. Curtis suggested that Mr. Hunter should bring in his amendments in the form of a separate bill.

Mr. Hunter asked if Mr. Curtis would promise to support such a bill if he brought it down?

Mr. Curtis said he would support such a bill if it was proved to him that employers were subject to the same grievances as the workmen.

Mr. Hawthornthwaite said it was a poor rule which did not work both ways. He would suggest that the matter be left open until members should have an opportunity to fully consider the effect of the proposed amendments.

Mr. Curtis insisted that the amendments should be brought in as a separate bill.

Mr. Oliver moved the adjournment of the debate.

SUPREME COURT.

Mr. McPhillips' bill to amend the Supreme Court Act was read a third time and passed.

MUNICIPAL ELECTIONS.

Mr. Oliver's bill to amend the Municipal Elections Act was further considered in committee of the whole, Mr. Neill in the chair.

An amendment providing that property holders in cities must be residents in order to be entitled to vote, was adopted.

The committee rose and reported progress.

The House adjourned at 6 o'clock until 8:30 p. m.

NIGHT SITTING.

Mr. Speaker took the chair at 8:45 p. m.

Mr. McBride rose to a question of privilege. He said if the government would consent to a dissolution (cries of order), He wished to make an explanation of the position of the opposition. (Order, order.)

Mr. Speaker held the honorable member out of order.

Messages were received from His Honor the Lieutenant-Governor transmitting bills to aid construction of a railway from Kitimat Inlet to Hazelton, and to the construction of a railway from Midway and Vernon. Consideration of these bills was fixed for the next sitting of the House.

Mr. McBride asked if it was the intention of the government to bring down a bill to aid the Westminister, Northern & Yukon railway?

Hon. Mr. Dunsmyth replied in the negative.

Mr. Oliver asked if it was the intention of the government to bring down a bill to aid the Ojalla Copper Mining & Smelter company to build the Coast-Kootenay railway? (Laughter.)

QUESTIONS.

Mr. McBride asked the government the following questions:

1. What services—with full particulars—were performed by Mr. Greenshield as representative of the local government in connection with negotiations between the Federal and local governments?

2. What services—with full particulars—were to be performed by Mr. Greenshield for the province?

3. What instructions regarding Dominion government railway subsidies have been given Mr. Greenshield?

Hon. Mr. Wells asked that the questions be deferred till tomorrow, as they had only been placed on the order paper this evening.

Mr. McBride said he was willing to wait till tomorrow provided Mr. Wells would promise to answer his questions fully and in detail.

Mr. Martin pointed out that the government were not compelled to answer questions, but did so as a matter of courtesy.

This raised a storm of protest from Messrs. McBride and McPhillips until they were called to order, and warned that they must obey the orders of the chair, and conform to the rules of the House.

MUNICIPAL ELECTIONS.

Mr. Oliver's bill to amend the Municipal Elections Act was reported complete with amendments.

LEGAL PROFESSIONS.

Mr. Martin's bill to amend the Legal Professions Act was taken up in committee of the whole, Mr. Clifford in the chair.

The bill provides for call and admission to the bar of students in good standing for five years, after having passed the preliminary examination, provided that the five years' term shall be reduced to three in the case of graduates of any recognized university of Great Britain or Canada, or who shall have, either before or after the passing of the act, served as bona fide clerks in the office of a practising barrister for 30 years.

Mr. Speaker ordered that both notices should be expunged from the order paper.

Hon. Mr. Prentice moved that the House proceed with the orders of the day.

Mr. McBride rose to protest and was called to order and told to sit down.

QUESTIONS.

Mr. Garden asked the Hon. the Minister of Finance the following question: How much money has been paid out of the provincial treasury since 1885 to aid the unfortunate families of the victims of the various coal mining disasters in the province, giving particulars of the times, places and amounts.

The Hon. Mr. Prentice replied as follows:

"Yr. 1885—Wellington Colliery, Wellington, \$500.

"Yr. 1888—Vancouver colliery, Nanaimo, \$5,000."

MORE OBSTRUCTION.

Mr. McBride again rose to make another obstructive speech, declaring the government had no right to proceed with public bills in the hands of private members.

He was called to order, and Mr. McPhillips was proceeding to argue Mr. McBride's right to speak when he, also, was called to order.

Mr. McBride made another attempt to be heard, but was promptly checked.

DECEIVING WORKMEN.

The report on Mr. Curtis' bill respecting deception in the employment of workmen was then taken up.

Mr. Hunter moved the following amendment:

"(a). It shall be unlawful for any person, society, association, or organization of any kind existing, or doing business in this province by himself or herself, or by his agent, or his agent, or attorney, to induce, influence, or persuade a workman not to change from one place to another, or persuade a workman to induce, influence, or persuade a workman of any calling or class, to keep away from this province, through or by means of deceptive representations, false advertising or false pretences concerning the kind and character of the work to be done, or amount and character of the compensation to be paid for such work, or the sanitary or other conditions of employment, or as to the existence or non-existence of a strike or other trouble then pending between employer and employees."

By striking out clause 3 and inserting the following in lieu thereof:

"3. Any employer or workman from a locality outside this province, who has sustained any damages, by reason of any of the things prohibited in clauses 2 and 2 (a) of this act, shall have a right of action for the recovery of such damages sustained in consequence of the false or deceptive representations, false advertising and false pretences, used to induce such workman not to change or to change his place of employment, against any person, society, association or organization, directly or indirectly causing such damages."

He held that it would be very unfair to pass a drastic law affecting employers while workmen might commit the very offences complained of with perfect impunity. He hoped the honorable, the mover of the bill and the House generally would accept his very necessary amendment.

Mr. Curtis suggested that Mr. Hunter should bring in his amendments in the form of a separate bill.

Mr. Hunter asked if Mr. Curtis would promise to support such a bill if he brought it down?

Mr. Curtis said he would support such a bill if it was proved to him that employers were subject to the same grievances as the workmen.

Mr. Hawthornthwaite said it was a poor rule which did not work both ways. He would suggest that the matter be left open until members should have an opportunity to fully consider the effect of the proposed amendments.

Mr. Curtis insisted that the amendments should be brought in as a separate bill.

Mr. Oliver moved the adjournment of the debate.

SUPREME COURT.

Mr. McPhillips' bill to amend the Supreme Court Act was read a third time and passed.

MUNICIPAL ELECTIONS.

Mr. Oliver's bill to amend the Municipal Elections Act was further considered in committee of the whole, Mr. Neill in the chair.
